In short, if the men, who are satisnearly every division of Asia during the ten months ending with April, while to South America they show a decrease in the exports to nearly every division. To the Dutch East Indies the figures show an increase of from \$1,491,142 in the ten months of 1961 to \$1,683,185 in the ten months of 1961 to \$1,683.185 in ten months of the present fiscal year. to Hongkong, from \$6,935,703 to \$7,396,-270; to Japan, from \$15,118,532 to \$18,-981,256; and to China, from \$7,423,243 to \$20,163.123. To China our exports for the full fiscal year seem likely to exceed those of any preceding year, and to Japan they will exceed those of any previous year except 1968, which was exceptional because of the large purchases of cotton cause of the large purchases of cotton made in the United States in that year for the Japanese market. Our exports to China, which in 1892 were \$5.663.497, seem likely to be nearly or quite \$25.000 in 1992. To Japan our exports in 1892 were \$5,290,111 and in 1992 seem likely to be \$22,000,000. To Hongkong our exports during 1892 were \$4,894.049, and in 1992 seem likely to be about \$5, 500,000. To the British East Indies our 500,000. To the British East Indies our first. To all of Asia our exports in 1892 were \$19,590,350, and in 1902 they will aggregate about \$66,

"To Oceania," says the report, "the actual growth in our exports is not so readily perceptible because of the fact that the figures of exports to Oceania no longer include our shipments to the Hawalian Islands, which are now con-sidered as domestic trade with domes-tic territory. Comparing 1882 with 1992, however, there is a marked growth in the shipments to all of those sections of Oceania now included in the state-ments of foreign compares. The Bar Association having recommended Mr. De Bolt for First Judge should now see that his claims are protected as well as put on file. It is not stated as well as put on file. It is not likely that Humphreys resigned without pulling strings so far as he was able, for a successor of his own breed. Though his influence at Washington has gone, there may be people, not has gone, there may be people, not has well work in his behalf. The Har Association, having practically let the removal case against Humphreys go by default, needs to be on hand now to see that Mr. DeBolt gets a fair show as his successor.

The finding of Captain Ward's body on the shore of San Francisco bay, nearly opposite the point where the Rio went down, indicates that the hull of the ill-starred liner is yet in the chan-nel, within the Golden Gate. It is thought from the condition of Captain Ward's body that it has been held, during the seventeen months past, in a cabin of the ship and was lately released by the breaking-up of the wreck. If that is the case, pieces of the Rio will on begin to appear on the beach.

The chase of the bandit Tracy reads like a stirring chapter in the dime novel of the past. Tracy recalls Robin Hood, Jesse James and Black Bart in one. The ease with which he baffles pursuit, his sudden and fatal vengeance, his politeness to ladies and love of little children and his cool, intrepid and area byward definers of the law and even buoyant defiance of the law and its officers, make him the true desperado of romance.

signs elsewhere, since the Pennsylvania frouble was adjusted, of Republican disconient.

The Democrats have hoped to win on the issues of trusts and imperialism. But the President's assault on the trusts has taken the thunder from the Democratic gun; and as for imperialism, the improving state of things in the Philippines and our good faith with the Cuba, has robbed the issue of its potency. Up in Oregon there have been, of late, two special fights for Congress, on the expansionist issue, in both of which the Republicans candidates won by increased majorities. Even though thinking Republicans may wish the flag well out of Asia, they are not prepared to go over to the Democrats on that account, especially as the latter do not dare say that their policy in the Philippines would differ in any degree from that of the Republicans.

To all appearances, therefore, the let-well-enough-close idea will prevail at the next elections and keep Congress in Republicans kands.
